

COP 23 CLIMATE ACTION AND SDG2

End Hunger, achieve food security and improved nutrition, and promote sustainable agriculture

14 November 2017

14:15 – 15:45

Meeting Room 1 – Bonn Zone

Roundtable 3: Building Climate-Resilient Landscapes for Improved Food Security and Nutrition

Short description

The roundtable will explore challenges, opportunities, and lessons learned in the forest and agriculture sectors, and will in particular focus on identifying the kinds of support needed to allow the small-scale foresters, indigenous peoples and pastoralists to identify sustainable coping strategies as well as the role of investors and private sector in support to sustainable land management and wider landscape approaches. It will also map key governance challenges, and review partnership experiences for the implementation of integrated landscape approaches.
